UN ANUNCIO ESPECIAL DESDE PODONG...

PODONG

Photo: Gram Unnayon Sangathon (GRAUS)

is an IUCN global initiative that recognizes and supports Indigenous Peoples' contributions to the conservation of biodiversity and climate solutions through their knowledge systems.

It ensures their full and effective leadership and access to adequate resources for the achievement of the Kunming-Montreal Global Biodiversity Framework and the Paris Agreement.

« PODONG »

means basket in the Indigenous Marma language of Bangladesh.

It symbolizes abundance and honors the vital role of Indigenous women in stewarding biodiversity and tackling climate change.

Our logo was co-created and co-designed with our Podong Indigenous leaders and partners.

Project Manager - Adapting to Climate Change

IKI

IKI INTERNATIONAL CLIMATE INITIATIVE

The International Climate Initiative (IKI)

- Since 2008, the IKI has been financing climate and biodiversity projects in developing, emerging, and transition countries.
- More than 1000 projects with a current funding volume of almost €7.5 billion.
- Since 2022, the IKI has been implemented by three ministries.
- Project selection mainly in ideas competitions for various types of funding
- IKI Strategy 2030 focusses funding on the 14 IKI priority countries

Mitigation of greenhouse gas emissions

Adaptation to the impacts of climate change

Conservation of natural carbon sinks
Focus on reducing emissions from deforestation and forest degradation (REDD+)

Conservation of biodiversity

IKI INTERNATIONAL CLIMATE INITIATIVE

IKI Gender Strategy

Questions?
Gender Help Desk
(iki-gender@z-u-g.org)

- Goals:
  - Systematically consider, promote and anchor **gender justice** in all **IKI structures and processes**
  - Require **at least gender-responsive** project planning from the Implementing organisations
  - Promote **gender-transformative** approaches
  - **Targeted** avoidance and reduction of **gender-based disadvantages and unequal treatment through** concrete measures in IKI projects

was
2021
published

includes
5
fields of action

based
2
global
frameworks

Fields of Action:

Governance

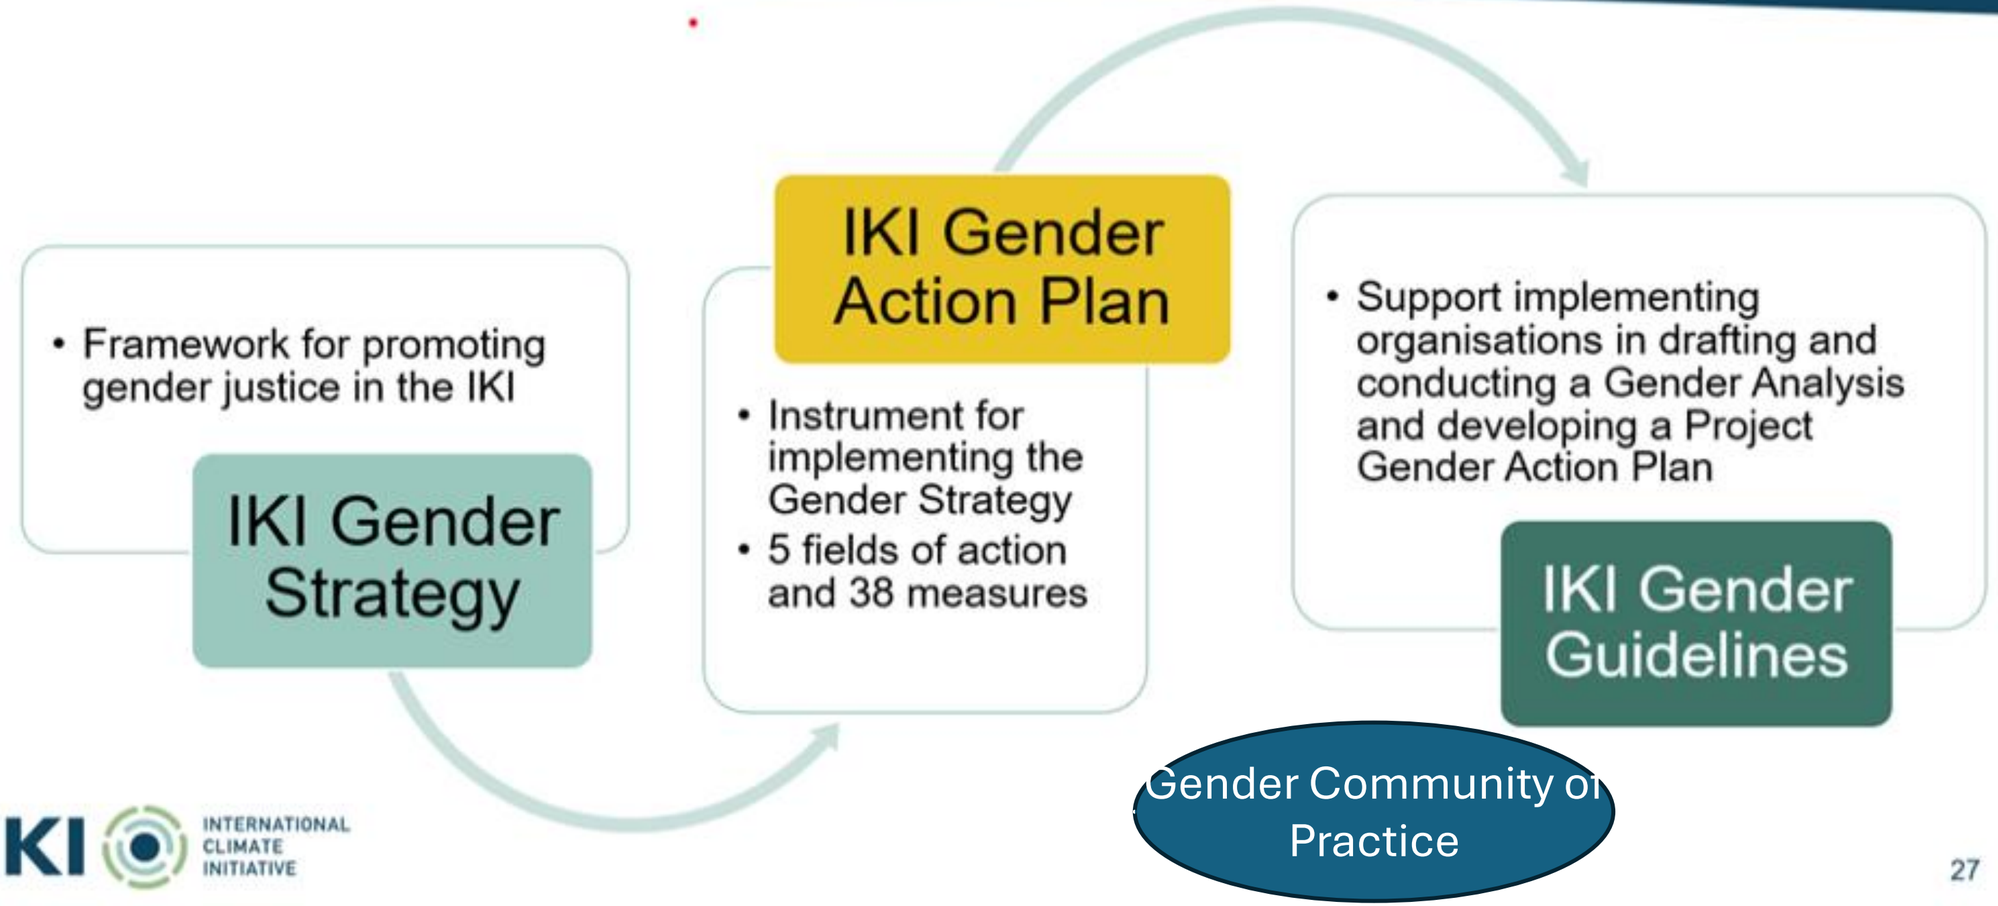
Requirements for implementing organisations & adaptation of processes

Gender competence

Knowledge Management & Communication

Resources & Budget

Gender mainstreaming within the IKI



IKI INTERNATIONAL CLIMATE INITIATIVE

IKI Safeguards: Protection of Indigenous Peoples, Marginalized or Vulnerable Groups

Naturaleza, Clima & Género
SIMPOSIO

Non-discrimination: Unavoidable adverse impacts must not disproportionately affect marginalised or vulnerable groups

Strengthening stakeholder engagement and participation, especially of indigenous communities, women, marginalised or vulnerable groups

IFC Performance Standard 7 focuses only on Indigenous Peoples

Human rights, labour rights, including rights of women, indigenous communities, vulnerable or marginalised groups **are respected and promoted**.

No activities that impact land of Indigenous Peoples **without appropriate consultations**

No manufacture, sale or use of **racist, ableist, sexist, homophobic or transphobic media**

Highest risk category when significant risks for indigenous communities, marginalised or vulnerable groups

Reliable tool for persons or groups that feel adversely affected by a project

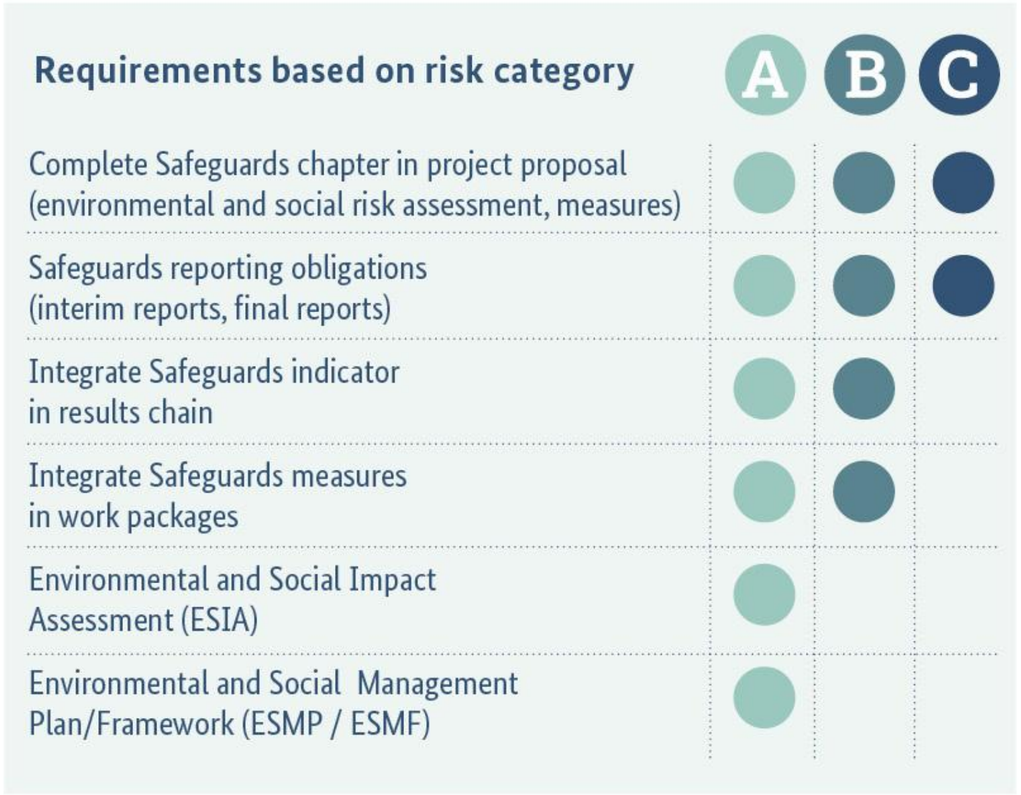
IKI Safeguards: Protection of Indigenous Peoples, marginalized or vulnerable groups



Los proyectos clasificados como de riesgo A deben presentar:

a. Una evaluación del impacto ambiental y social (ESIA).
b. b. Un marco de gestión ambiental y social (ESMF) y/o un plan de gestión ambiental y social (ESMP).

Además, pueden incluir lo Marco de gestión ambiental y social (MGAS) y/o Plan de gestión ambiental y social (PGAS). Además, pueden incluir lo siguiente:

a. definición de criterios de terminación;
b. obligación de presentar informes semestrales.

Además, cuando sea adecuado para el diseño del proyecto, se pueden exigir a la organización ejecutora instrumentos de salvaguardia específicos, entre ellos:

- marcos de procesos: por ejemplo, marcos de procesos para pueblos indígenas;
- planes de gestión específicos: por ejemplo, Plan de Restauración de los Medios de Vida, Plan de Reasentamiento, Plan de Participación de las Partes Interesadas, Consulta y Participación Informada, Consentimiento Libre, Previo e Informado (CLPI) / Plan de Pueblos Indígenas, Plan de Acción para la Biodiversidad, Gestión Integrada de Plagas, Gestión Integrada de Vectores;
- análisis de riesgos específicos: p. ej., Evaluación del Impacto sobre la Biodiversidad;
- mecanismo de denuncia específico del proyecto;
- supervisión por terceros.

Youth Empowerment in the IKI

IKI promotes cooperation by, for and with young people

Why is it important to empower young people for climate justice?

- Create intergenerational justice
- Youth as the driving force of transformation
- Youth make up a large part of the population in IKI partner countries

Youth in the IKI – what we are doing

- IKI Medium Grants 2022: thematic focus on 'Youth Empowerment for Net-Zero'
- IKI youth delegation at international conferences (NDC Conference, SBs)
- IKI presence at the German "Local Conference of Youth" (LCOY)
- Development of internal training programme on youth for technical project managers at ZUG/IKI

…and much more

IKI projects – youth and adaptation

- Out of 50 youth related running IKI projects, 29 are active in the **green areas**: adaptation (6), natural carbon sinks (6) and and biodiversity (17)
- Project examples:
  - **Blue-Green Development in Kiribati** implemented a training component for youth to enhance knowledge of local communities to adopt sustainable livelihood opportunities
  - **Protecting Aquatic Ecosystems in India's Northeastern Himalaya Region** developed trainings for unemployed youth to run an aqua park
  - **CitiesAdapt** carries out a student competition for adaptation measures in Mexico

The IKI portfolio includes around 50 youth-related projects.

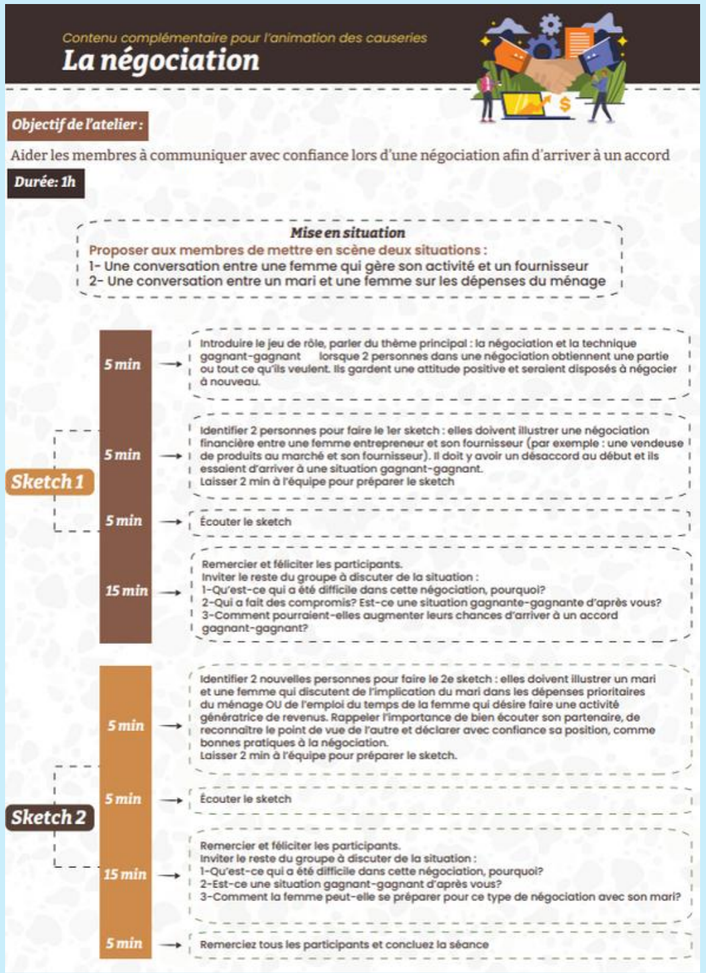
Educación y sensibilización sobre cuestiones de género



Contenu complémentaire pour l'animation des causeries

La négociation

Objectif de l'atelier :

Aider les membres à communiquer avec confiance lors d'une négociation afin d'arriver à un accord

Durée: 1h

Mise en situation

Proposer aux membres de mettre en scène deux situations :
1- Une conversation entre une femme qui gère son activité et un fournisseur
2- Une conversation entre un mari et une femme sur les dépenses du ménage

Sketch 1

- 5 min → Introduire le jeu de rôle, parler du thème principal : la négociation et la technique gagnant-gagnant lorsque 2 personnes dans une négociation obtiennent une partie ou tout ce qu'ils veulent. Ils gardent une attitude positive et seraient disposés à négocier à nouveau.
- 5 min → Identifier 2 personnes pour faire le 1er sketch : elles doivent illustrer une négociation financière entre une femme entrepreneur et son fournisseur (par exemple : une vendeuse de produits au marché et son fournisseur). Il doit y avoir un désaccord au début et ils essaient d'arriver à une situation gagnant-gagnant.
  Laisser 2 min à l'équipe pour préparer le sketch
- 5 min → Écouter le sketch
- 15 min → Remercier et féliciter les participants.
  Inviter le reste du groupe à discuter de la situation :
  1-Qu'est-ce qui a été difficile dans cette négociation, pourquoi?
  2-Qui a fait des compromis? Est-ce une situation gagnante-gagnante d'après vous?
  3-Comment pourraient-elles augmenter leurs chances d'arriver à un accord gagnant-gagnant?

Sketch 2

- 5 min → Identifier 2 nouvelles personnes pour faire le 2e sketch : elles doivent illustrer un mari et une femme qui discutent de l'implication du mari dans les dépenses prioritaires du ménage OU de l'emploi du temps de la femme qui désire faire une activité génératrice de revenus. Rappeler l'importance de bien écouter son partenaire, de reconnaître le point de vue de l'autre et déclarer avec confiance sa position, comme bonnes pratiques à la négociation.
  Laisser 2 min à l'équipe pour préparer le sketch.
- 5 min → Écouter le sketch
- 15 min → Remercier et féliciter les participants.
  Inviter le reste du groupe à discuter de la situation :
  1-Qu'est-ce qui a été difficile dans cette négociation, pourquoi?
  2-Est-ce une situation gagnant-gagnant d'après vous?
  3-Comment la femme peut-elle se préparer pour ce type de négociation avec son mari?
- 5 min → Remerciez tous les participants et concluez la séance

Sobre el proyecto Natur'ELLES

El programa de liderazgo medioambiental feminista y agentividad climática: ¿qué objetivo y enfoque?

Relatos fotográficos y voces comprometidas de mujeres líderes de la costa de Senegal, en la encrucijada del medio ambiente, el clima y la justicia social.

La fotografía y la narración visual: aliado estratégico y símbolo de una postura de liderazgo

Fotografiar para hacernos oír. Contar la historia para pasar a la acción.

IUCN NAbSA NATURE-BASED SOLUTIONS FOR CLIMATE ADAPTATION Global EbA Fund PODONG INDIGENOUS PEOPLES INITIATIVE Supported by: Federal Ministry for the Environment, Nature Conservation, Nuclear Safety and Consumer Protection based on a decision of the German Bundestag IKI INTERNATIONAL CLIMATE INITIATIVE In partnership with Canada Norway UN environment programme

*«El mar avanza tan rápidamente que ya ha arrancado trozos de la costa y roído las raíces de los manglares... Con el apoyo de SOCODEVI, hemos adoptado y construido espigones malteses, una solución basada en la naturaleza, sencilla pero potente, hecha con palos y empalizadas para frenar el avance del mar. ...**El manglar está volviendo cada vez más y, naturalmente, hemos recuperado mucha esperanza**.*

«Cuando el mar avanza, se lleva las cabañas, las cosechas, pero también la escuela. Y cuando la escuela se va, las niñas también se van. Se van para casarse demasiado pronto, para hogares que no han elegido, para una vida que les imponen».

He comprendido que el clima no es mi única lucha, los espacios de reforestación se han convertido en espacios de sensibilización sobre los derechos de las niñas y la lucha contra la violencia de género

Autora de la foto y relato: Fatou Ndong y AWA Sylla
